

The diagram shows a vertical stack of layers, numbered 1 to 10 from top to bottom. Each layer contains various components, labeled with letters A through J. The components are arranged in a way that suggests a flow or a sequence of operations. For example, in layer 1, component A is at the top, followed by B, C, D, E, F, G, H, I, and J. In layer 2, component A is at the top, followed by B, C, D, E, F, G, H, I, and J. The diagram illustrates the relationship between the layers and the components, showing how they are interconnected and how they change across the layers.

EXAMINER: Initial if citation considered, whether or not citation is in conformance with MPEP 609; draw line through citation if not in conformance and not considered. Include copy of this form with next communication.
